

Héricourt, the 29th october 2019 - 8:30 AM CET

GAUSSIN and Paris Saint-Germain team up for innovative next-generation mobility solutions

GAUSSIN (EURONEXT GROWTH - FR0010342329) and Paris Saint-Germain have signed a strategic partnership to provide driverless, 100% electric vehicles for both public transport and freight (between 3.5 and 7.5 tonnes). This long-term agreement involves equipping the Parisian Club's entire infrastructure, including the future PSG Training Centre which will open its doors in 2022.

The Gaussin Group, one of the world's leading transport and services providers and Paris Saint-Germain, the leading football club of the new generation, boast the shared ambition to offer innovative solutions in the field of sustainable development and self-driving.

Christophe Gaussin, Chairman and CEO of the GAUSSIN Group, said: *"The Gaussin Group has developed a unique expertise in terms of urbanization, transport and environment. Our strategic alliance with Paris Saint-Germain, one of the most popular and innovative football clubs in the world, will enable us to promote our cutting-edge solutions to the general public worldwide."*

Jean-Claude Blanc, Deputy CEO of the Paris Saint-Germain, added: *"We are very pleased to welcome GAUSSIN into the Paris Saint-Germain family. Alongside the Club's training center project, scheduled to open in 2022, Paris Saint-Germain also aims to make sustainable development one of its landmarks,*

thereby embodying the aspirations of the next generation. Our collaboration with GAUSSIN will enable us to strengthen this commitment."

Under the terms of the agreement, the GAUSSIN Group will initially conduct studies before deploying automated electric people carriers to transport players, employees, visitors and goods including food, training and maintenance equipment at all the Paris Saint-Germain locations.

As part of the partnership, the GAUSSIN Group will work with the teams at the future PSG Training Center with the aim of making it the first Smart City sports complex.

About GAUSSIN

GAUSSIN is an engineering company that designs, assembles and markets innovative products and services in the field of transport and logistics. Its know-how includes the transport of goods and people, autonomous technologies for driverless use of the Automotive Guided Vehicles type, and the integration of all types of batteries, including electric and hydrogen. With more than 50 000 vehicles worldwide, GAUSSIN enjoys a strong reputation in four growing markets: port and airport terminals, logistics and people mobility. The group has forged strategic partnerships with major global players to accelerate its commercial penetration: Siemens Logistics in the airport sector, Bolloré Ports and ST Engineering in the port sector, and Bluebus for transporting people.

GAUSSIN has been listed on Euronext Growth in Paris since 2010.
