GAUSSIN appoints Gary Patterson as Vice-President, Customer Operations and Success

GAUSSIN (EURONEXT GROWTH: ALGAU - FR0013495298), an innovative player in the field of transport and logistics, announces the appointment of Gary Patterson as Vice-President, Customer Operations and Success. In this role, Gary will enhance GAUSSIN's customer experience, from engagement and enablement through services, deployment and support.

A graduate of Boston University, Gary, 58 years-old, brings more than 25 years of experience in B2B enterprise information technology, focused on the delivery of transformative change enabled by innovative, data-driven solutions.

Prior to joining GAUSSIN, Gary served as Chief Operating Officer of Bestmile, a Swiss provider of a fleet orchestration platform for mobility providers to deploy, manage and optimize AV and human-driven vehicle fleets. In this capacity, Gary drove Bestmile's strategic partnerships and customer operations - including support, deployment and success organizations. Prior to Bestmile, Gary served as VP of Technology for cloud management infrastructure and software provider at Dell Technologies.

"I am pleased to join GAUSSIN, an exciting and ambitious group that is rapidly growing and has a real vision for the future of transportation. GAUSSIN's expertise in autonomous and electric vehicles is a key asset that makes it a major player in logistics and smart mobility", says Gary Patterson.

"I am delighted that Gary Patterson is joining us. His arrival symbolizes GAUSSIN's desire to extend its expertise in the empowerment of vehicles, not only in the transport of goods, but also in the mobility of people. Ultimately, our vision is in line with the logic of Smart Cities, " said Christophe Gaussin, CEO of the GAUSSIN group.

« Hydrogen Business for Climate » Exhibition: 13 and 14 January 2021 in Belfort
Artificial Intelligence Exhibition (SIA): 16 and 17 June 2021 in Belfort

About GAUSSIN

GAUSSIN is an engineering company that designs, assembles and sells innovative products and services in the transport and logistics field. Its know-how encompasses cargo and passenger transport, autonomous technologies allowing for self-driving solutions such as Automotive Guided Vehicle, and the integration of all types of batteries, particularly electric and hydrogen fuel cells. With more than 50,000 vehicles worldwide, GAUSSIN enjoys a strong reputation in four fast-expanding markets: port terminals, airports, logistics and people mobility. The group has formed strategic partnerships with major global players in order to accelerate its market penetration: Siemens Logistics in the airport field, Bolloré Ports and ST Engineering in ports, UPS in logistics and Bluebus for people mobility. GAUSSIN has extended its business model with licensing agreements that are aimed at speeding up the use of its technology throughout the world. The purchase of Metalliance has resulted in the emergence of a group with over 200 employees and €50M turnover.

In October 2019, the Group won the World Challenge for Self-Driving Transport in the Leading Company Category, Best Energy and Environmental Sustainability.

GAUSSIN has been listed on Euronext Growth in Paris since 2010 (EURONEXT GROWTH - FR0013495298).
